## Project Description

The Municipality of Anchorage (MOA) is upgrading West Dimond Boulevard. Phase I, from Westpark Drive to Sand Lake Road, will improve the drainage, pavement, intersection operations, and safety of pedestrians, bicyclists and drivers through non-motorized facilities and lighting. The design study phase was completed in 2013 and the preferred alternatives were advanced to the 65% design level this summer. Funding for design, easement acquisition, utility relocation and construction is provided by a \$7.5 million state grant.

## Key Project Features:

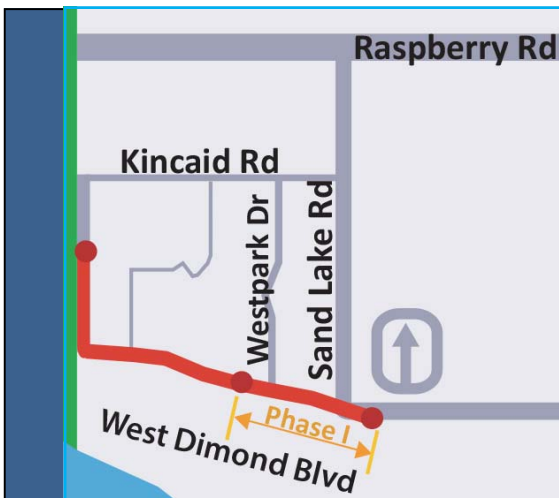

- Reconstruction of roadway surface and subsurface;
- Addition of shoulders with curb and gutter, new catch basins and storm drainage;
- Addition of 5-foot bike lanes;
- New multi-use pathways; 10-foot on north side and 8-foot on south side;
- New continuous lighting; and
- Single-lane roundabouts at Westpark Drive and Sand Lake Road

## Project Schedule:

- Phase I—Westpark Drive to Sand Lake Road: Construction in 2015
